

# DAVID LAKE

## SKILLS

Extensive experience with JQuery, VB.NET, MS SQL, Java, Javascript, CSS, HTML, C, Matlab, and Linux. Self-starter, team player and multitasker that strives to consistently exceed expectations.

## OBJECTIVE

Results-oriented individual interested in being an integral asset for a company that will utilize my education in engineering and programming experience.

## EXPERIENCE

### **Software Developer Intern | Priority Software Inc. | 4/2017-10/2017**

Handled database and website programming tasks (primarily using JQuery, VB.NET, and MS SQL). Debugged and fixed various issues in databases, built dialogs, and created stored procedures and views. Commended on working diligently to solve problems with little supervision needed.

### **CNC Machinist | Precision Grinding Inc. | 2008-2015**

In charge of running vertical CNC machining centers, as well as training co-workers to run them. Known for my expertise and precise workmanship on all manual machines. Admired for my ability to move to any area of the shop to take over and successfully complete the job while far exceeding my peers.

## EDUCATION

### **BA Computer Science | 2014-current | University of Alabama at Birmingham**

Consistently praised by professors for programming abilities, grasps of multiple technologies, and attention to detail. (Minor in Business Administration)

### **Advanced Diploma | 2008 | Pleasant Grove HS**
